

Weedseal™

Stop Trimmer Damage!

Save time and energy costs!

Welcome to the Weedseal™ product line. Our weed control products are designed to help homeowners, cities, municipalities, road departments, parks, and private businesses drastically reduce energy and labor costs and the use of harsh and costly chemicals associated with weeds surrounding sign posts, utility poles, hydrants, water pipes, gas pipes, fences, etc. Weedseal products create a tough, long-lasting barrier against unwanted vegetation growth. Benefits of using Weedseal products include:

- *Eliminates trimming—mow right up to it!*
- *Eliminates use of costly and harmful chemicals.*
- *Saves time, labor, and energy costs.*
- *Ultra-tough material lasts for years.*
- *Residential and commercial uses.*

With today's record energy costs, we're confident you'll find Weedseal products to be the perfect labor and energy saving solution. Please call us or visit our website for additional information and start realizing the savings today!

Introducing the product line of...

Weedseal™

A product of Bruckman Rubber Co.

Weedseal products are an ultra-tough, long-lasting weed control solution...virtually eliminates trimming and the use of harmful chemicals!

Weedseal™

Weedseal 12" & 15"

Weedseal 12" and 15" are ideal for those tight areas! Made from a specially formulated, fiber reinforced rubber material allows you to mow right up to it. The smaller size controls weeds, eliminates trimming, and adds a cost-effective, decorative barrier. Custom die-cut round and square centers are available to fit snug and keep weeds out.

- Thermo-radiant heat stops vegetation growth under the ring
- Will pay for itself under normal conditions in less than year of installation
- Saves on labor, energy and chemical costs
- Can be ordered with a "slitlock" which allows for easy installation
- Can be ordered with round or square diecut centers to size
- Perfect for private residences, municipalities, parks, businesses, playgrounds, etc.

Weedseal 32"

Drastically reduce energy and labor costs and the use of harsh and costly chemicals associated with weeds surrounding sign posts, utility poles, fire hydrants, water pipes, gas pipes, playground equipment, etc. Manufactured primarily from recycled tire material, the extremely tough Weedseal 32" creates a tough, long-lasting barrier against unwanted vegetation growth.

Features include:

- Thermo-radiant heat stops vegetation growth under the ring
- Designed with a tapered top and edge to allow easy mowing
- Will pay for itself under normal conditions in less than year of installation
- Saves on labor, energy and chemical costs
- Can be ordered with round or square diecut centers to size
- Can be ordered with a "slitlock" which allows for easy installation
- Wind resistant and requires no tie-downs
- Perfect for municipalities, road departments, parks, churches, businesses, private residences, playgrounds, etc.
- Environmentally friendly; manufactured using recycled tire rubber
- Can be easily painted for a decorative look
- Volume pricing available

Weedseal Fence & Border Guard

Tired of trimming below and around fences? Weedseal Fence and Border Guard is the perfect solution by creating an unbeatable, long lasting grass and weed barrier. No more damage to fences posts—no more burnt grass edges from chemical usage—no more trimming, period! Our perfect-fit system is precut to your post size and fence runs, so installation is a snap. Made from a specially formulated, fiber reinforced rubber material, unwanted weeds and grass are eliminated while creating a neat, decorative barrier. Weedseal Fence & Border Guard is ideal for fences of all types including vinyl, chain-link, wood, wrought iron, and is also perfect for creating a border around foundations, retaining walls, etc. Features include:

- Thermo-radiant heat stops vegetation growth under the strip
- Helps eliminate the need for trimming and chemicals
- Easy installation — order to size for an exact fit
- Saves on labor, energy and chemical costs
- Long lasting, ultra tough material will last years
- Use with all type of fences: vinyl, chain link, wrought-iron, wood, decorative, etc.
